Spanish key, Shifted	ª		Ç											Ñ	ı

Dead keys

Dead keys are keys that do not create characters immediately, but modify the next key (if allowed) by adding an accent mark to it. The Spanish layout has six dead keys on the Control bar on Options 0, 1, 2, 3, 4, 5 which are used as described in the section *The dead keys on the Control bar* in the page *Creating international keys* in the User Guides. This is an easy method of creating accented characters. The standard method of using dead keys can also be used.

Accent	Option key	Standard Spanish dead key sequence
cedilla (ç)	0†	
tilde (ã)	1	Shift-Back tick (~) in the left circle
umlaut (ä)	2	Shift-Confirm-Shift-k-Confirm
acute (á)	3	Shift-Confirm-k-Confirm
circumflex (â)	4	Shift-6-Confirm (^) in the right circle
grave (à)	5	Back tick (`) in the left circle

† Option 0 will always produce ç regardless of the character that follows its selection.

AltGr keys

The **Right Alt** (or **AltGr**) key can be used to create the following characters:

Character required	AltGr combination	Comment
	AltGr-1	
@	AltGr-2	Also Shift-2
#	AltGr-3	
~	AltGr-4	Dead key
€	AltGr-5 or AltGr-E	
¬	AltGr-6
